## GREETINGS FOR 1950

'Tis we who be of simple mind  
And work in gardens, often find  
While bending o'er the lowly sod,  
The highest thoughts of life and God.

—Unknown

Again I wish to use this means of saying THANKS to my friends and customers for all favors. It has been nice to see many of you the past season and I hope you will come again. It is always a pleasure to serve you and I trust I may have that privilege again this season.

Thanks again and all good wishes for a year of health, happiness and success.

All bulbs and plants are state inspected—guaranteed true to name, and to reach you in good growing condition. If not satisfied, let me know at once and I will make adjustment.

All orders amounting to \$1.00 or more are sent post-paid—if less than \$1.00 please add 10c for postage. Stamps accepted for orders of less than \$1.00.

## A FEW POINTERS ON DAHLIA CULTURE

Plant tubers 4 to 6 inches deep and about three feet apart in well worked soil. I usually plant from May 20th to June 10th. Do not plant near buildings or trees—they do best in full sun. Keep top soil stirred, allow no crust to form and keep free of grass and weeds. Do not water unless very dry—then soak thoroughly once a week—a slight sprinkling will do more harm than good. As the buds develop in groups of three—remove the two side buds leaving only the middle or terminal bud and you will have large flowers with longer stems.

## BUTTON MUMS

I have three kinds of good bronze buttons—names lost, each 20c. All other buttons 25 cents each.

IRENE (white), MINONG (white), JEWEL (orchid), JEWELRY (lavender), JUDITH ANDERSON (yellow), SEPTEMBER BRONZE (orange-bronze).

My Chrysanthemum plants are seldom large enough to start shipping before the first of May and of course the earliest orders are filled first.
